

SEAK / Speakology AI – dokumentacja widoków

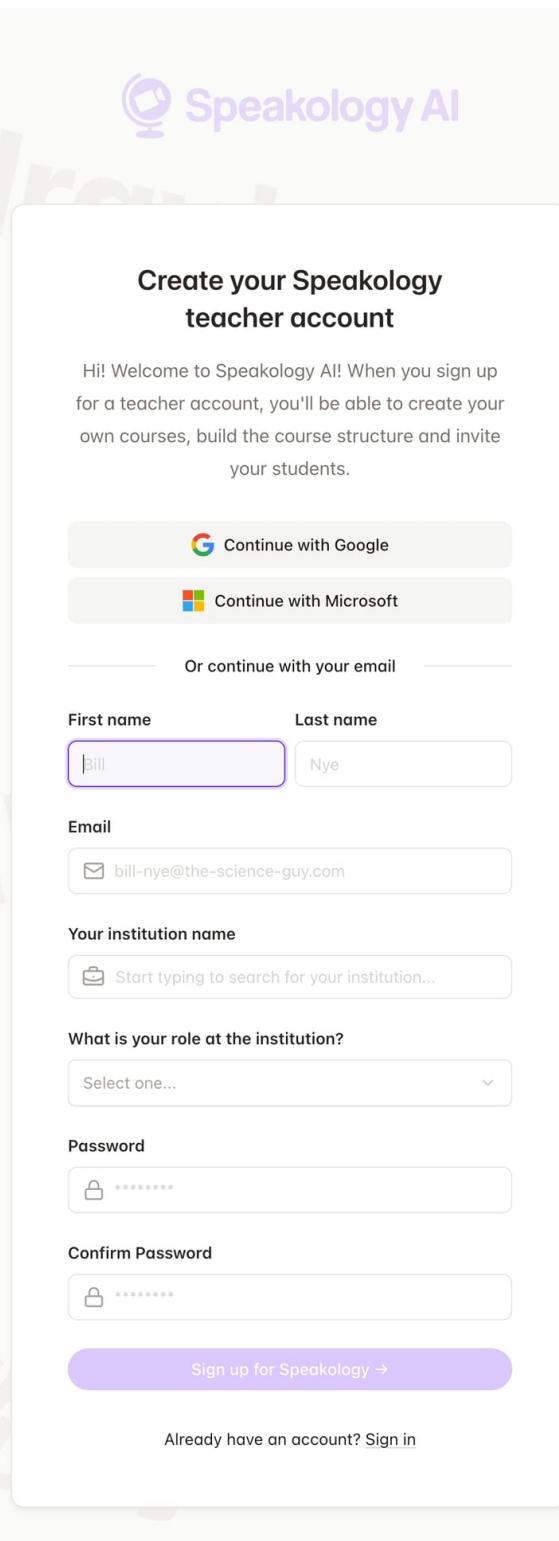

Noa Noakowski • 25 lutego 2026

Podsumowanie kluczowych obserwacji

- Onboarding prowadzi użytkownika krok-po-kroku (ponad 15 ekranów) – przydałby się pasek postępu lub tryb skrócony.
- Kreator kursów jest intuicyjny, ale nie ma importu istniejących materiałów ani wskazówek dla nowych nauczycieli.
- Panel Teaching jest kompletny (gradebook, transcripts, insights, assignments, quizzes, roster, settings), lecz bez studentów wszystko jest puste – warto dodać dane demo.
- Wsparcie i dokumentacja (mail/telefon/WhatsApp/szkolenia) są mocno wyeksponowane i dostępne z wielu ekranów.
- Brakuje globalnej wyszukiwarki, responsywnego layoutu dla mobile i jasnego komunikatu o wygaśniętym trialu (baner jest nachalny, ale nic nie da się zrobić z poziomu UI).

Rejestracja nauczyciela

Formularz startowy z logowaniem Google/Microsoft lub e-mailem.

The image shows a registration form for a Speakology teacher account. At the top right is the Speakology AI logo, which consists of a blue speech bubble icon followed by the text "Speakology AI". Below the logo is a large, bold title: "Create your Speakology teacher account". A brief welcome message follows: "Hi! Welcome to Speakology AI! When you sign up for a teacher account, you'll be able to create your own courses, build the course structure and invite your students." Below this are two social media login buttons: "Continue with Google" and "Continue with Microsoft". Underneath these buttons is a link: "Or continue with your email". The form then asks for "First name" (input field containing "Bill") and "Last name" (input field containing "Nye"). The next section is for "Email" (input field containing "bill-nye@the-science-guy.com"). The following section is for "Your institution name" (input field with placeholder "Start typing to search for your institution..."). The next section is for "What is your role at the institution?" (a dropdown menu with the option "Select one..."). The final sections are for "Password" (input field showing a masked password) and "Confirm Password" (input field showing a masked password). At the bottom of the form is a purple button labeled "Sign up for Speakology →". Below this button is a link: "Already have an account? [Sign in](#)".

Trial vs kod dostępu

Wyboru pomiędzy darmową wersją próbną a aktywacją kodu od zespołu Speakology.

The screenshot shows the Speakology AI website interface. At the top, there is a navigation bar with icons for Home, Courses, Assignments, and Your profile. Below the navigation bar, a large button labeled "Start a trial" is visible. A modal dialog box titled "Join Speakology AI" is centered on the screen. The dialog contains instructions: "To get access to Speakology AI as a teacher, please enter the access code provided to you by the Speakology AI team." It features an "Access Code" input field with placeholder text "e.g. NBPS21238", a "Continue" button, and a "Cancel" button. In the background, there is a blurred "Get started with Speakology AI" section and a "Sign out of your account" link. A purple speech bubble icon is located in the bottom right corner of the page.

Kod dostępu

Modal do wpisania kodu typu „damian8893”. Brakuje podpowiedzi skąd go wziąć.

Tips and Tricks From Educators Using Speakology AI

- **Getting Started:** We recommend instructing your students to start with simpler lessons like "Introduce Yourself" to get comfortable with the platform. The "Talk About Anything" lesson is often difficult for beginners. Speak loudly, slowly, and clearly.
- **Environment:** Speakology AI performs best in quiet settings. Encourage students to use it at home rather than in the classroom, where background noise and distractions can interfere with focus and the AI's accuracy.
- **Accountability:** Remind students that you can view their conversation transcriptions. This helps reduce the initial "messing around" phase and encourages them to engage more seriously.
- **How to Speak:** Pressing the spacebar while talking can be easier than holding the button.
- **Frequency:** We recommend assigning the platform as homework at least once every two weeks for consistent practice. Expect mixed results in the first 2-3 assignments as students get familiar with the platform.
- **Use the Translator:** Students can tap on words to quickly translate them while practicing.

Widok kursanta

Dashboard ucznia, random instructor, progres w rozdziałach.

The screenshot shows the Speakology AI student dashboard. At the top, there's a navigation bar with links for Home, Courses, Assignments, Your profile, and Teaching. Below the navigation, there are three status indicators: "0 Day Streak" (flame icon), "0 modules completed" (star icon), and "All time: 0 sec" (calendar icon).

Your Instructor

A section titled "Your Instructor" displays a thumbnail of three people and the text "Random Instructor". A subtext says "Meet someone new every session. Exposure to variety improves comprehension!" with a "Switch" button.

Course: English 101 - Noakowski

A search bar is present above a list of 12 chapters. Each chapter card includes the chapter title, a progress indicator (e.g., 0/1, 0/4, 0/8, etc.), and a "More" button.

- Chapter 1 Welcome!
- Chapter 2 Daily Life Basics
- Chapter 3 Family and Friends
- Chapter 4 Food & Drink
- Chapter 5 Home and Everyday Objects
- Chapter 6 Free Time & Hobbies
- Chapter 7 Around Town
- Chapter 8 Weather & Seasons
- Chapter 9 Past Experiences & Stories
- Chapter 10 Future Plans & Predictions
- Chapter 11 Technology & Communication
- Chapter 12 Review & Real-Life English

Under "CURRICULUM", are Organize, Assignments, and Quizzes. Under "MANAGE COURSE", are Roster (which is selected and highlighted in grey), Invite Students, and Settings. A purple speech bubble icon is located in the bottom right corner. A central modal window is titled "Course access code" and contains instructions: "Share these instructions with your students for them to join English 101 - Noakowski." It features a large purple button with the code "english101-314690" in white. Below the code, there are "Student instructions": 1. Go to www.speakology.ai/join, 2. Enter the code: **english101-314690**, 3. Create an account with your school email address. At the bottom of the modal are "Copy instructions" and "Close" buttons.

Teaching – Settings

Pełny ekran opcji: tłumaczenia, grading threshold, captions, feedback, speech recognition.

The screenshot shows the 'Settings' page of the Speakology AI platform. The left sidebar includes sections for GRAADING (Gradebook, Transcripts, Insights), CURRICULUM (Organize, Assignments, Quizzes), and MANAGE COURSE (Roster, Invite Students). The main content area is divided into several sections:

- General**:
 - Allow module translation**: If enabled, students will be able to translate text modules from English to their native language. (Enabled)
- Grading**:
 - Show AI score to students**: If enabled, an AI score will appear on the summary pages for your students. Disabling this will not prevent scores from appearing in your gradebook. (Enabled)
 - Display AI scores on summary pages**: A toggle switch.
 - Utterances required for grading**: How many student utterances are required for students to receive a grade? This is a global setting for all modules in this course. You can override this per module by creating an assignment with specific requirements. Changing this setting will not affect prior post grades.
Number of utterances (0-100): 6
- WIDA levels**: Set the starting and target WIDA levels for this course.
 - Starting WIDA proficiency level of students in the course**: Level 1: Emerging
 - Target WIDA proficiency level of students when they complete the course**: Level 2: Emerging
- WIDA Grading Thresholds**: Adjust WIDA level thresholds for new grades. Post grades remain unchanged.

Thresholds	Grade Ranges
For Below	AO (Red) For Below Expectations 60 – 79
Below	80 (Orange) Below Expectations 80 – 84
Approaching	85 (Yellow) Approaching Expectations 85 – 99
Exceeds	100 (Green) Exceeds Expectations 100
- Video calls**:
 - Captions**:
 - Allow students to toggle captions on and off**: Students can toggle captions on and off, and reply any message by clicking the reply button. (Enabled)
 - Hide captions, but show the reply button**: Students can reply any message by clicking the reply button, but captions are hidden.
 - Hide captions**: Students can verbally ask the AI instructor to repeat or clarify. Reply button is not shown.
- Default Call Settings**: Set defaults for all call activities. These can be overridden on individual activities.
 - Who leads the conversation?**:
 - AI**: After each utterance, the AI instructor will ask a question to keep the conversation flowing.
 - Mixed**: AI generally guides, but leaves space for the learner to ask their own questions.
 - Student**: The learner drives the conversation. The AI answers naturally and only questions when needed.
 - How should AI correct the student?**: Correct all mistakes
 - How should the AI deliver feedback?**:
 - Explicit**: The AI highlights the correction outright, using cues like "Ex más natural decir..." ideal when you want very clear, direct feedback.
 - Recast (embed the correction inside your reply)**: The AI highlights the correction and embeds it in the response without flagging it as a correction. Learners hear the right version in context.
 - Ack for clarification**: The AI asks a short clarifying question to be sure it's understood, then provides the correction if needed. Promotes reflection before fixing errors.
 - Let the AI Instructor Decide**: No fixed rule – the AI chooses the most suitable feedback style moment-to-moment. Great for mixed dialogue.
 - Make the student repeat the phrase correctly before advancing**:
 - Allow clarification in student's native language**: The AI can switch to the student's native language to clarify confusion, then return to the target language.
- Avatar voice role**: Choose how the AI instructor speaks to your students. If you don't select a value, avatar will default to whatever the student's setting is. However, you can override this setting for this course to explicitly set the voice role.
 - Use the student default**: A dropdown menu.
- Speech Recognition**: Choose how speech-recognition works for you and your students in this course. This setting affects how the system processes and transcribes spoken audio.
 - Let Student Decide**: Students can log in noise cancellation on/off during conversations. Off (disabled) is best for quiet environments. On (on) is best for noisy environments with consistent target language recognition.
 - Require Sensitive Mode**: Best for quiet environments. Adopts when students switch languages or struggle with pronunciation, and more readily catches nuanced mistakes and subtle errors.
 - Require Noise Cancellation**: Best for noisy environments. Provides stable recognition in the target language and can distinguish between foreground and background noise, with less granular error detection than Sensitive mode.
